

Embodygames Trial asset

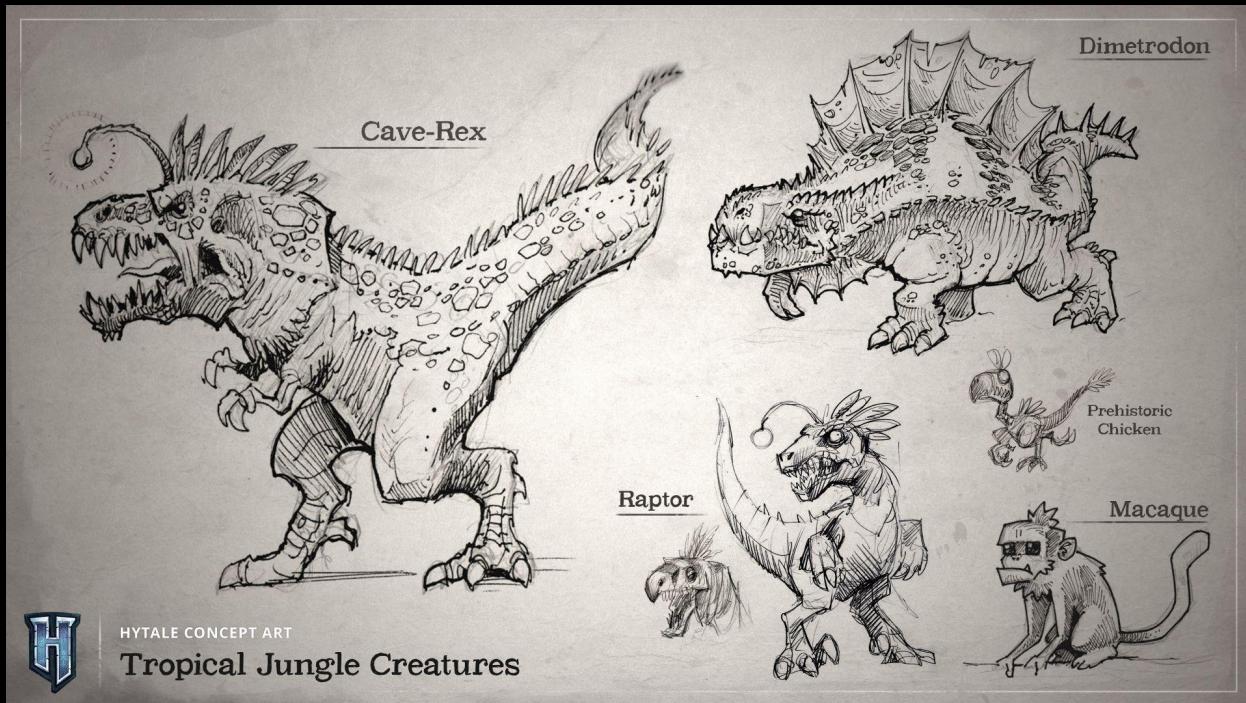

For this trial test, we'd like you to create a new entity for Hytale. The main goal is to see how well you can match the Hytale style, demonstrate material knowledge, show strong composition, and bring your own creativity to the design.

In your submission, we'd like to see the following included:

- **Idea Generation** - Notes or rough sketches about your creature's purpose, habitat, and personality.
- **Thumbnail Sketches** - Small sketches exploring different shapes, poses, and features.
- **Refined Sketches** - More detailed drawings focusing on anatomy and proportions.
- **Color Concepts** - Experiments with colors, patterns, and textures.
- **Final Concept Art** - A polished illustration clearly showing your creature.
- **Optional Extras** - Character sheets, action poses, or environment sketches showing the creature in context.

We're excited to see your creativity and how you interpret the Hytale style!
